

Basic Directions:

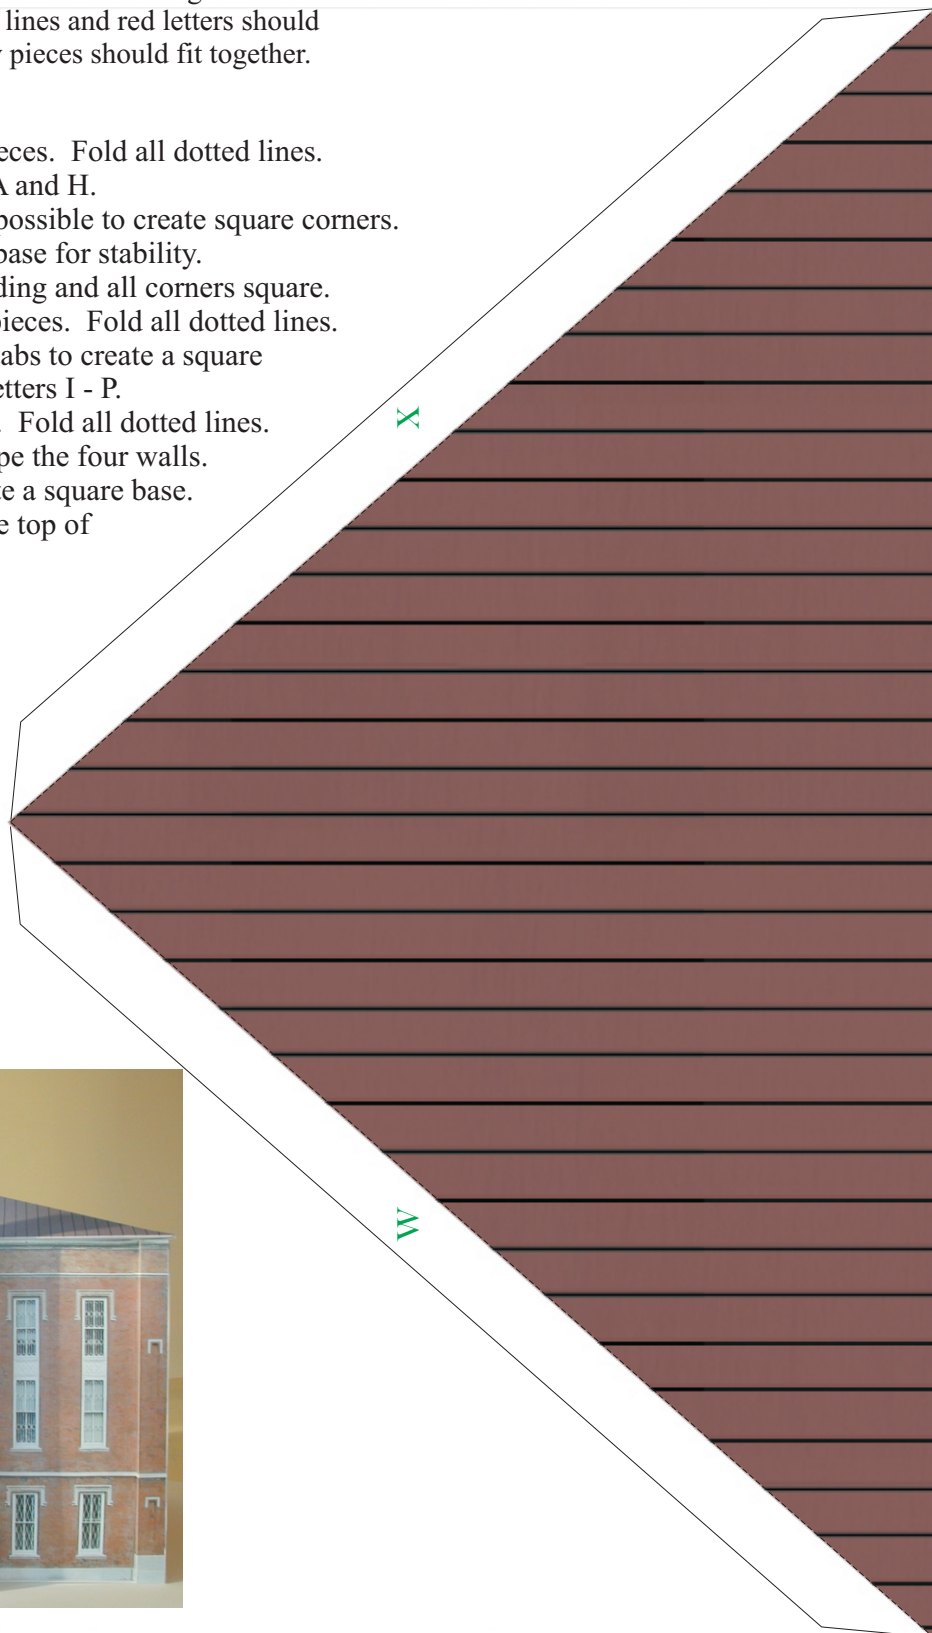

1. Lightly score dotted lines before cutting piece out to make folding easier.
2. Be careful to cut around all tabs.
3. Dotted lines are to be folded. Green dotted lines and green letters should be folded backward. Red dotted lines and red letters should be folded forward. Letters indicate how pieces should fit together.

To Assemble Walls, Towers and Steps:

1. Cut out the Front, Back and Side pieces. Fold all dotted lines.
2. Glue the Walls together using tabs A and H.
3. Glue corners of bottom tabs where possible to create square corners.
4. Glue bottom tabs to a poster board base for stability.
Be sure walls are straight and the building and all corners square.
5. Cut out the Front and Back Tower pieces. Fold all dotted lines.
6. Glue each Tower's top and bottom tabs to create a square tube. Glue Tower's to main walls at letters I - P.
7. Cut out the four Tower Battlements. Fold all dotted lines.
8. Glue each Battlement's x tab to shape the four walls.
Glue the bottom tabs together to create a square base.
9. Glue one Battlement centered on the top of each Tower.
10. Cut out the Two Center Window Balcony pieces. Fold all dotted lines.
11. Glue the Balconies under the center window where indicated.
12. Cut out the Front and Back Steps. Fold all dotted lines.
13. Glue each steps w - z tabs to the corresponding location. Glue steps into place at each Center section.

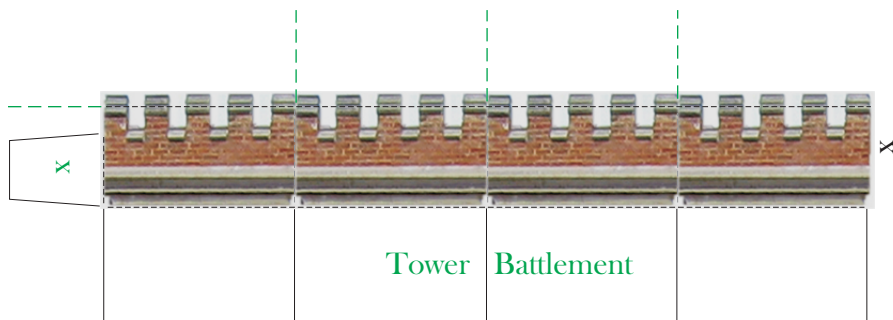

Front of Built Model

Right end roof. Attach with slight overhang at each end at face of each end tab. Overhang will be greater at center tab.

Glue the Base of the Back of Rear
Steps tab to this location.

Base of the Back of Rear Steps.
Glue this tab to the matching
box on the front tab.

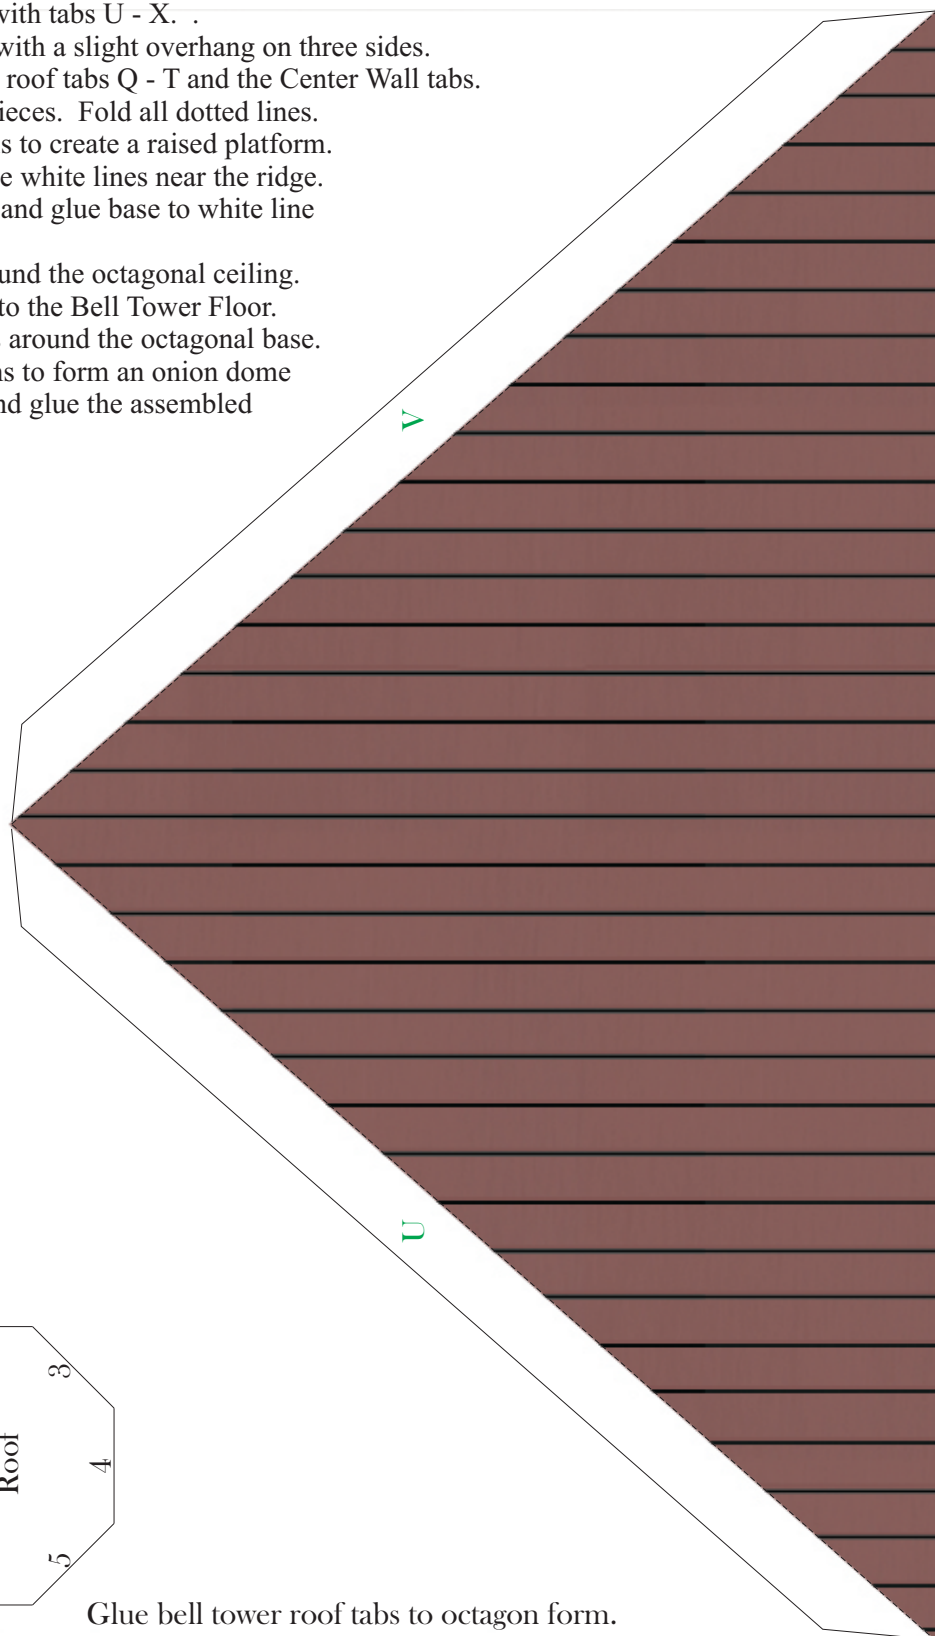

Fold at center roof sections, front and back,
to slightly flatten.

To add Roofs and Bell Tower:

1. Cut out the main Roof pieces. Fold all dotted lines.
2. Glue each end Roof to Side Roofs with tabs U - X.
3. Glue each roof to the wall top tabs with a slight overhang on three sides.
4. Glue the Center Roof in place over roof tabs Q - T and the Center Wall tabs.
5. Cut out the remaining Bell Tower pieces. Fold all dotted lines.
6. Glue the Bell Tower Floor side walls to create a raised platform. Glue the floor to the Center Roof at the white lines near the ridge.
7. Glue the bell images back to back, and glue base to white line at center of the Bell Tower Floor.
8. Glue the Bell Tower Base walls around the octagonal ceiling.
9. Glue the Bell Tower Base columns to the Bell Tower Floor.
10. Glue the Bell Tower Roof sections around the octagonal base.
11. Shape the Bell Tower Roof sections to form an onion dome shape. Glue the sections into place, and glue the assembled roof centered over the Base.

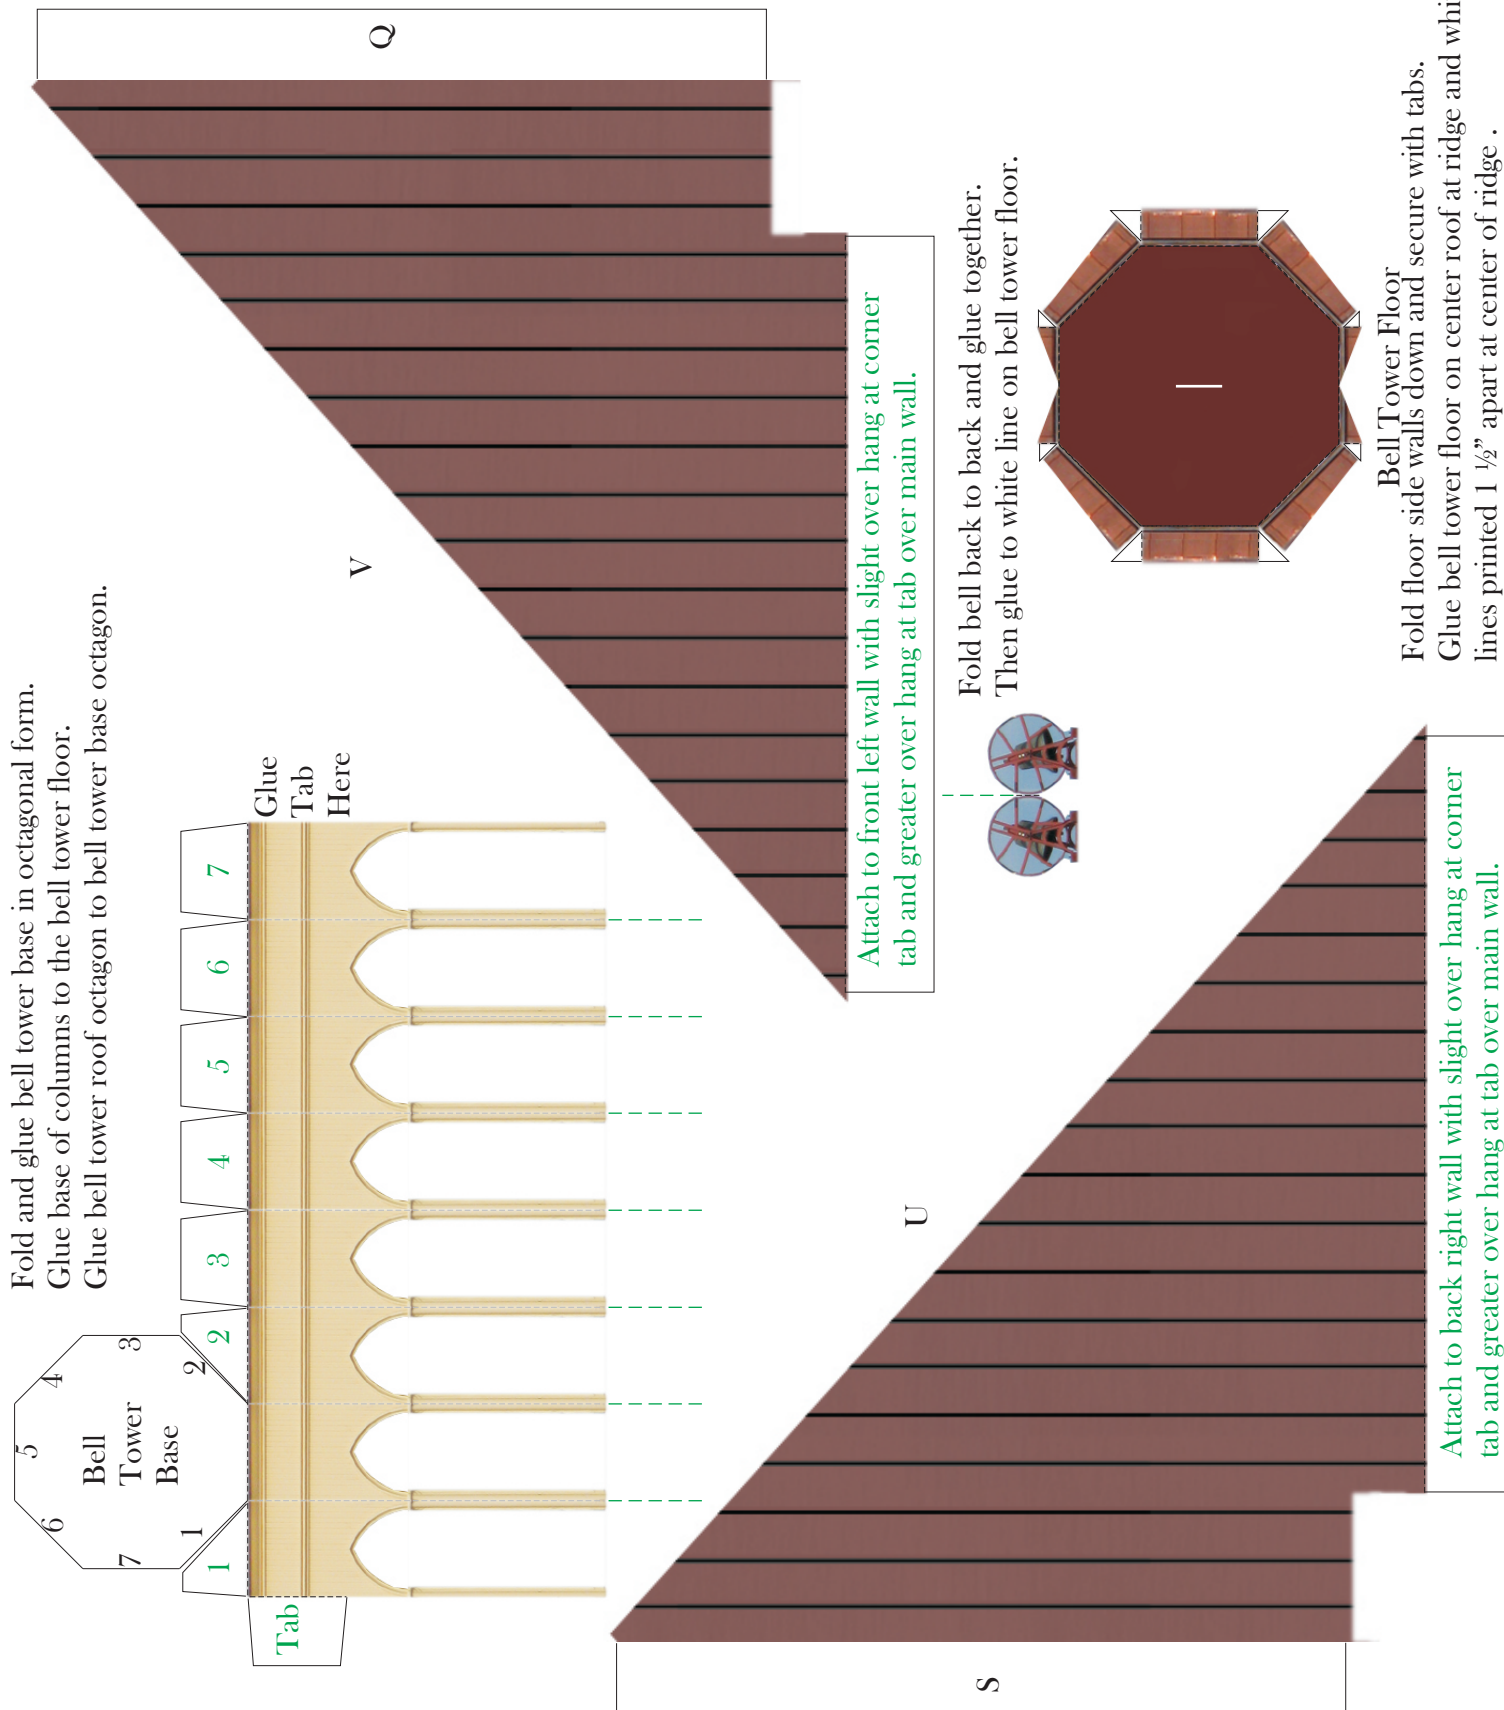

Glue bell tower roof tabs to octagon form.
Shape roof panels to form dome and glue sides
and peak together.

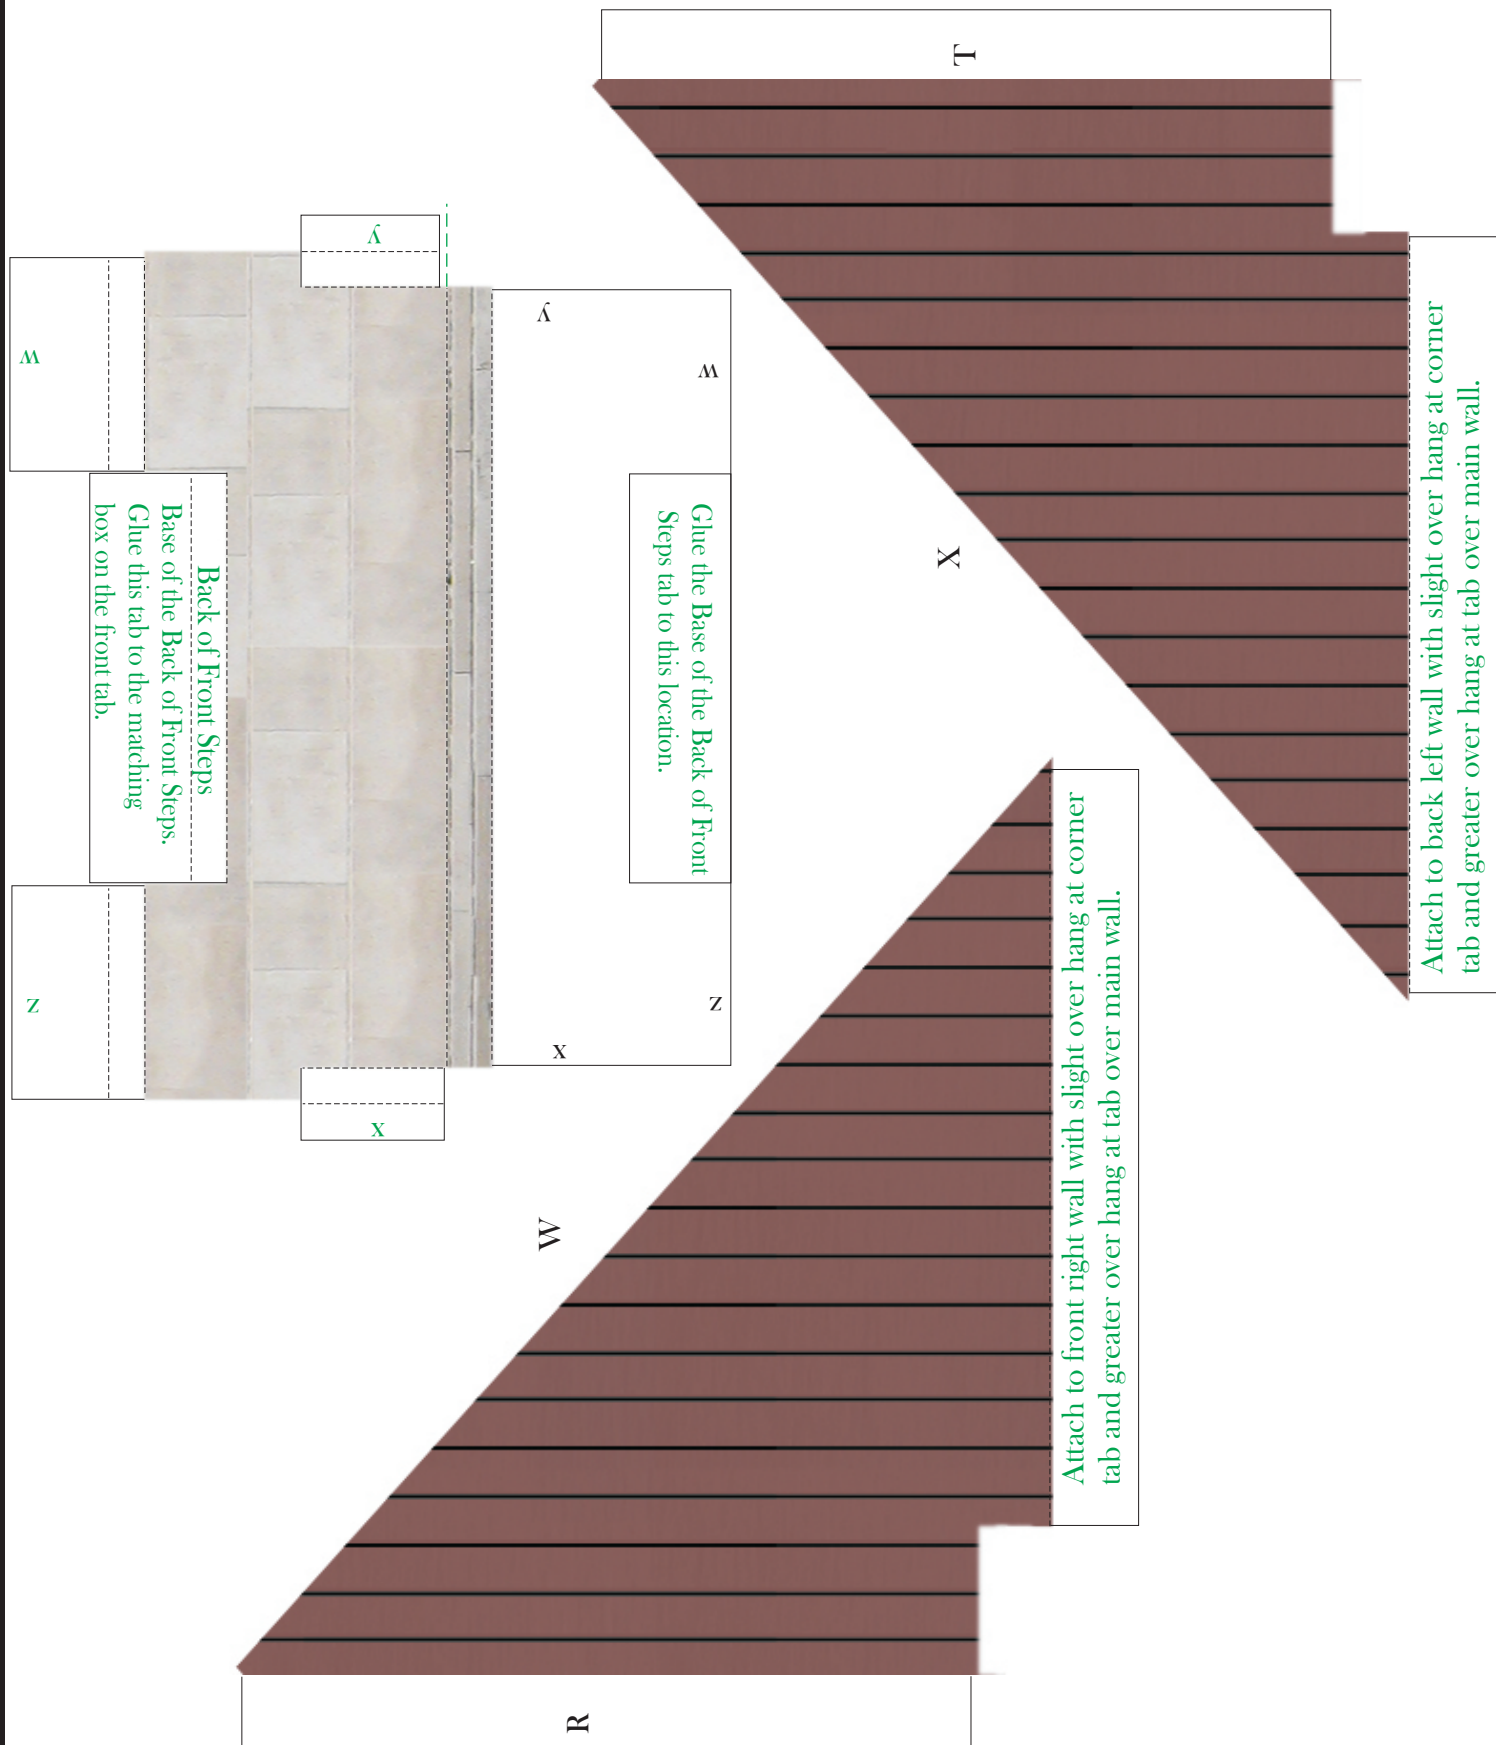

Left end roof. Attach with slight overhang at each end at face of each end tab. Overhang will be greater at center tab.

BUILD YOUR OWN LINCOLN SITES

Fold and glue bell tower base in octagonal form.
 Glue base of columns to the bell tower floor.
 Glue bell tower roof octagon to bell tower base octagon.
