**HISTORIC AND ARCHAEOLOGICAL REVIEW PROCEDURES FOR
PROJECTS IN ILLINOIS – JANUARY 1, 2023 THROUGH DECEMBER 31, 2023**

ALLIANCE PIPELINE, LP

1. Where the Alliance Pipeline, LP (Alliance) right-of-way (ROW) is maintained (i.e., periodic mowing) and has been previously disturbed by the original installation, then, for the following types of projects, there will be no contact with the Illinois Historic Preservation Agency – Preservation Services Division, the office of the State Historic Preservation Officer (SHPO):
 - a. construction and other activities on existing ROW, including the installation and maintenance, relocation, replacement, or abandonment and removal of receipt and delivery taps, meters, regulators, valves, pipe, points of delivery (POD), and other auxiliary pipeline facilities, as well as investigatory activities within existing, previously disturbed ROW;
 - b. construction maintenance, relocation, replacement and/or abandonment projects within existing, previously-disturbed, and generally fenced compressor and metering and regulating (M&R) stations, yards and gas processing plants, and the installation of field compressors or dehydrators on an existing ROW;
 - c. use of existing access roads and existing ROW as access to all construction and/or maintenance projects including minor maintenance or upgrades such as adding gravel, re-grading, and side trimming (pruning) of trees; and
 - d. the acquisition of existing facilities by lease or purchase (no new ROW required).
2. A transmittal letter is required to serve as documentation of consultation with the Illinois SHPO for projects not in the categories described in Stipulation 1:
 - a. Alliance will provide the Illinois SHPO with a project description, a project map, a summary of its cultural resources review, and any other material helpful to the SHPO in making its recommendations for the project.
3. For projects located on Federal lands, the land managing agency or lead federal agency will be consulted.

Identification of Historic Properties

In the unlikely event that an archaeological site is identified in the process of undertaking any of the activities listed above, ground disturbance will cease, and Alliance will confer with the Illinois SHPO. For other construction and maintenance activities beyond the horizontal and vertical limits of prior ground disturbance, Alliance will put forth an adequate effort to identify historic properties within the area of potential effect and begin consultation with the Illinois SHPO as required under Section 106 of the National Historic Preservation Act of 1966, as amended (36 CFR 800).

Reporting

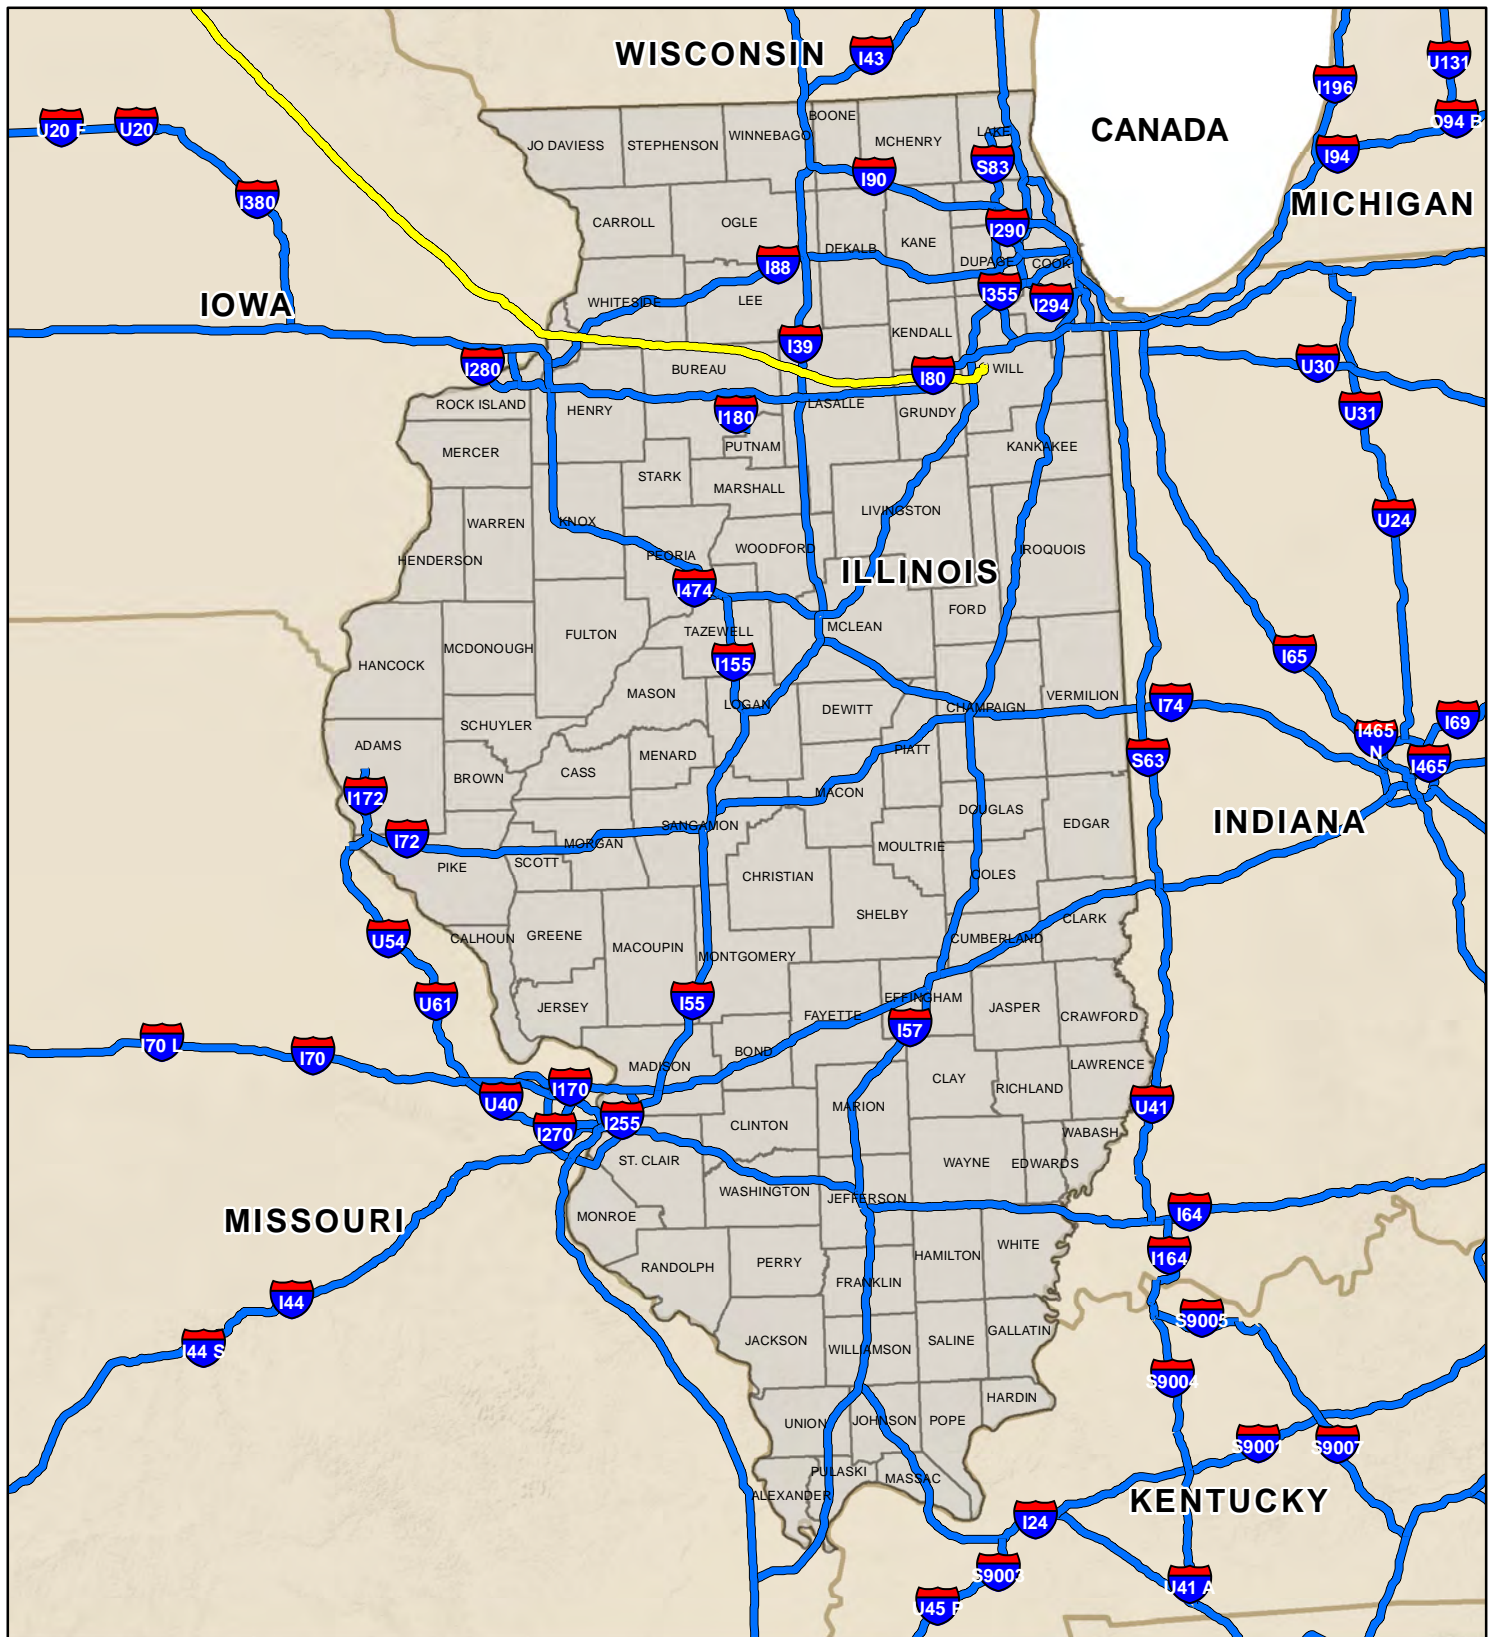

Alliance will provide the Illinois SHPO a summary of all the projects completed under this agreement on an annual basis, including USGS quadrangle maps showing the location(s) of all projects identified in the summary report. This report shall be submitted by January 31st.

Hi Greg,

We will be renewing this, but may change the format of the agreement document to match other agreement templates in our office. I will get back to you after we discuss internally. Until then, operate as if the agreement is in place.

Hello Mr. Kruchten,

We are checking in to see if you have had a chance to review the request to renew the categorical exclusion agreements between Illinois SHPO and two of Enbridge's natural gas pipeline business units: Texas Eastern Transmission and Alliance Pipeline. I had send this to you back in November 2021 and we are hoping to have this renewed in the near future. Please let us know if you have any questions or need additional information.

Thanks,
Greg

Hello Ms. Wallace,

Attached please find correspondence from Enbridge to the Illinois SHPO, regarding proposed renewal of two existing categorical exclusion agreements between Alliance Pipeline and Texas Eastern Transmission and the Illinois SHPO.

I was going to send the renewal agreement request to Jeffery Kruchten since he was listed as the point of contact for last year's review of the agreements, but I didn't see him on the Illinois SHPO's web site, so I'm not sure if he still works for SHPO.

If you have any questions or need additional information, please let us know.

Thanks,
Greg
