

13 July 2026

Carol Wallace
IDNR-Illinois State Historic Preservation Office
Attn: Review & Compliance
1 Old State Capitol Plaza
Springfield, IL 62701

Dear Ms. Wallace:

Attached is the listing of all Department of Natural Resources-sponsored projects exempted from archaeological survey during FY26 (July 1, 2025, through June 30, 2026) under the terms of the programmatic agreements of the Illinois State Historic Preservation Office and Illinois Department of Natural Resources environmental/cultural reviews section. Two sheets with the exemption codes are appended, as well as a copy of an amendment to the programmatic that covers categories of vegetation clearing, which we refer to as #13 in the exempt code column. Also in that column, a number that includes an 'm' indicates a mining related exemption.

The IDNR-Office of Realty and Capital Planning Impact Assessment Section seeks SHPO concurrence that within the programmatic agreements the listed undertakings, including Abandoned Mine Land Reclamation projects, comply with state and federal regulations pertaining to cultural resources. The IDNR programmatic agreement with the Fish and Wildlife Service requires that we provide a copy of the SHPO concurrence by September 30; therefore, a timely response would be appreciated.

Sincerely,

A handwritten signature in blue ink that reads "Dawn Cobb".

Dawn E. Cobb
Cultural Resources Coordinator
Office of Realty and Capital Planning
Impact Assessment Section

Cc: Jennifer Wellman
