**RE: Texas Eastern Transmission, L.P.
Historic and Archaeological Categorical Exclusion Agreement for Pipeline
Construction/Maintenance Activities in Illinois
SHPO Log #011112019**

Dear Mr. Appleman:

Texas Eastern Transmission, LP ("Texas Eastern") is requesting a categorical exclusion agreement renewal with the Illinois State Historic Preservation Office for the period of January 1, 2021 through December 31, 2021 for pipeline construction and maintenance activities in Illinois. Enclosed please find a copy of the current agreement which expires at the end of this year, along with a consultation agreement with similar language to that included in the previous agreement. Also, enclosed is the overview map showing the location of the Texas Eastern facilities by county in Illinois. If you concur with this request, please sign and date the enclosed agreement and return it to the following address:

*Texas Eastern Transmission, LP
Attn: William Brett
890 Winter Street, Suite 300
Waltham, MA 02451*

All written correspondence should be directed to the above address. Texas Eastern believes that this agreement will continue to facilitate Texas Eastern's operations in Illinois while still protecting potentially significant cultural resources.

If you have any questions or require additional information, please do not hesitate to contact Gregory R. Dubell at 401-288-6322 or gdubell@palinc.com, at your convenience. We appreciate your time and attention to this matter.

Sincerely,

William Brett
Supervisor
Environment Projects US

HISTORIC AND ARCHAEOLOGICAL REVIEW PROCEDURES FOR PROJECTS IN ILLINOIS – JANUARY 1, 2021 THROUGH DECEMBER 31, 2021

TEXAS EASTERN TRANSMISSION, LP

1. Where the Texas Eastern Transmission, LP (Texas Eastern) right-of-way (ROW) is maintained (i.e., periodic mowing) and has been previously disturbed by the original installation, then, for the following types of projects, there will be no contact with the Illinois Historic Preservation Agency – Preservation Services Division, the office of the State Historic Preservation Officer (SHPO):
 - a. construction and other activities on existing ROW, including the installation and maintenance, relocation, replacement, or abandonment and removal of receipt and delivery taps, meters, regulators, valves, pipe, points of delivery (POD), and other auxiliary pipeline facilities, as well as investigatory activities within existing, previously disturbed ROW;
 - b. construction maintenance, relocation, replacement and/or abandonment projects within existing, previously-disturbed, and generally fenced compressor and metering and regulating (M&R) stations, yards and gas processing plants, and the installation of field compressors or dehydrators on an existing ROW;
 - c. use of existing access roads and existing ROW as access to all construction and/or maintenance projects including minor maintenance or upgrades such as adding gravel, re-grading, and side trimming (pruning) of trees; and
 - d. the acquisition of existing facilities by lease or purchase (no new ROW required).
2. A transmittal letter is required to serve as documentation of consultation with the Illinois SHPO for projects not in the categories described in Stipulation 1:
 - a. Texas Eastern will provide the Illinois SHPO with a project description, a project map, a summary of its cultural resources review, and any other material helpful to the SHPO in making its recommendations for the project.
3. For projects located on Federal lands, the land managing agency or lead federal agency will be consulted.

Identification of Historic Properties

In the unlikely event that an archaeological site is identified in the process of undertaking any of the activities listed above, ground disturbance will cease, and Texas Eastern will confer with the Illinois SHPO. For other construction and maintenance activities beyond the horizontal and vertical limits of prior ground disturbance, Texas Eastern will put forth an adequate effort to identify historic properties within the area of potential effect and begin consultation with the Illinois SHPO as required under Section 106 of the National Historic Preservation Act of 1966, as amended (36 CFR 800).

Reporting

Texas Eastern will provide the Illinois SHPO a summary of all the projects completed under this agreement on an annual basis, including USGS quadrangle maps showing the location(s) of all projects identified in the summary report. This report shall be submitted by January 31st.

Enbridge Texas Eastern Transmission, LP

890 Winter Street, Suite 300

Waltham, MA 02451

Dear Mr. Brett:

We have reviewed the documentation submitted for the referenced project(s) in accordance with 36 CFR Part 800.4. Based upon the information provided, no historic properties are affected. We, therefore, have no objection to the undertaking proceeding as planned.

Please retain this letter in your files as evidence of compliance with section 106 of the National Historic Preservation Act of 1966, as amended. This clearance remains in effect for two (2) years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the Illinois Human Skeletal Remains Protection Act (20 ILCS 3440).

If you are an applicant, please submit a copy of this letter to the state or federal agency from which you obtain any permit, license, grant, or other assistance. If further assistance is needed contact Jeff Kruchten, Chief Archaeologist at 217/785-1279 or Jeffery.kruchten@illinois.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert F. Appleman".
